CORE COMPETENCIES

Agentic AI UX
AI Agents & Copilots
Human-in-the-Loop Design
AI Governance & Guardrails
Explainable AI & Trust
Conversational UI
Multi-Agent Workflows
Prompt & Evaluation UX
RAG & Knowledge UX
Enterprise SaaS & B2B
Information Architecture
Design Systems
Prototyping
User Research & Usability Testing
Success Metrics (HEART, SUS)

EDUCATION

B.Des, National Institute of Design (NID)
Kurukshetra · 2016 – 2021

Internships: Dorling Kindersley India (2020), Fisheye Design (2019)

AWARDS

DNA Paris Design Awards 2024
Winner · Ranbhoomi Kurukshetra

TOOLS

Figma, Figma Make, Principle, Adobe CC, Miro, Notion, Claude, ChatGPT, Gemini, Cursor, Lovable, v0

PLATFORMS

Copilot Studio, Dynamics 365, Agent 365, Agentforce, watsonx Orchestrate, OpenAI AgentKit

AI product designer with 5+ years in design, building agentic AI that enterprises can trust. I own product design for ZBrain at The Hackett Group and have designed copilots and AI agents for Microsoft.

Specialist in human-in-the-loop AI: plan approval before generation, visible reasoning and cost, trust scores, guardrails and kill switches.

Experience

The Hackett Group (LeewayHertz) · ZBrain · AI XPLR
PRODUCT DESIGNER, AI PLATFORMS / 2025 – Present

- Own end-to-end product design for ZBrain, an enterprise agentic AI platform, across 3 generations: IA, 2 navigation rebuilds, 3 design systems
- Designed AI governance shipped in 4 production releases (Aug–Nov 2026): trust scores, privilege levels, policy spaces, approvals and a kill switch
- Created the plan-approve-build pattern: the agent proposes, the user approves, every step shows its reasoning, tokens and cost
- Designed multi-agent crews, retrieval testing, prompt evaluators and a chat-first solution builder with analysts, the model team and engineers
- Rebuilt AI XPLR from a 4,272-solution library into a client-first workflow across 4 public releases (2.0–5.0)
- Made AI ROI defensible with per-KPI benchmarks; XPLR is used by IBM Consulting and found 18 AI use cases for one client

Microsoft · CE Agent · MDM Copilot
UX DESIGNER, CUSTOMER ZERO EXPERIENCE (CONTRACT) / 2024 – 2025

- Designed CE Agent, an AI agent that turns a Teams request into an Azure renewal plan inside MSX (Dynamics 365)
- Delivered the Teams-to-quote flow in 6 weeks for 2 stakeholder demos after exploring 7 layouts and 4 compare patterns
- Defined a 4-mode Copilot model (proactive, reactive, agentic, assistive) that set what Copilot may do on its own
- Handed off MDM Copilot Phase 1 in 2 months: 7 scenarios, failure states, prototype, success metrics and component kit

Microsoft · Enterprise email security

UX DESIGNER, MICROSOFT SECURITY (CONTRACT) / 2023 – 2024

- Proposed a unified threat-hunting workflow for an email security product used by Fortune 500 companies
- Grounded it in usage data and PM interviews: 3 analyst personas and 7 opportunity areas
- Mapped 4 setup journeys and proposed AI-guided onboarding across email, endpoint, identity and cloud apps

QAI | QGLUE

BRAND & COMMUNICATION LEAD / 2021 – 2023

- Led brand identity and marketing design across web, blog and podcast, and managed one designer
- Built the external communication strategy that aligned the brand with company goals

Independent Work

CrestOS

AI-NATIVE SEO SUITE / 2026

0-to-1 product where AI suggests fixes and people approve; 72-token design system and brand

Squirrel

EDTECH DASHBOARD / 2026

Student money dashboard for desktop, iPad and mobile from a 112-note audit

Ranbhoomi Kurukshetra

GAME DESIGN / 2023 – 2024

Art direction for a published strategy game; DNA Paris Design Awards 2024 winner

Maharashtra Police

EXHIBITION DESIGN / 2022 – 2023

Gadchiroli exhibition honouring police martyrs
